

Delivering the value of truly integrated benefits.

Cigna Healthcare® offers integrated benefit solutions for you and your employees' unique benefits needs.

Cigna Pharmacy Management® is an essential component of our end-to-end integrated capabilities, leveraging more than 30 years of integrated pharmacy expertise to drive meaningful engagement, improve total health outcomes, and deliver total cost savings through the benefit employees access most: pharmacy.

Driving a more flexible and affordable health care experience.

We consistently work to reach across benefits and connect integrated data to lead your employees and their family members to the right services, medications and guidance to help see their best health outcomes. Most of our valuable pharmacy benefit solutions are available at no additional cost and come standard as part of your pharmacy benefit plan offering.

Example solutions	Advantages for you and your employees
Accredo by Evernorth® specialty pharmacy	24/7/365 condition-specific support and access to 500+ condition-focused pharmacists, designed to improve outcomes with integrated specialty drug management.
Cigna One Guide®	Offers proactive, personalized health recommendations and seamless connection to coaching and case management.
Cigna Rx Claim Connect	Avoids the need for prior authorization (PA) by applying medical and pharmacy data early. When criteria is met, the claim pays with no delay – helps avoid about 41% of PAs. ¹
Clinical Day Supply Program*	Improves specialty medication adherence, safety and savings. Smart logic assigns each specialty drug a unique day supply limit for mail order, 30 or up to 90 days. ²
Comprehensive Gaps in Care management	Identifies potential risks, adverse events and care opportunities to help drive improved wellness and savings.
Embarc Benefit Protection®	Helps improve care, access, and affordability for gene therapy medications with a pathway to provide coverage.
Enhanced Rx Savings Messenger	Helps lower maintenance medication costs and improve access via outreach to network providers to urge prescribing of lower-cost alternatives – 30% higher conversion rate vs. member outreach alone. ³
Out-of-Pocket Adjuster Program*	Minimizes the impact of manufacturer-sponsored copay assistance on plan design – plan savings can equal up to an estimated \$2.00 per member per month (PMPM). ⁴
Patient Assurance Program*	Caps prices at \$25 for a 30-day (one-month) supply for eligible customers who manage a chronic condition, like diabetes. Over \$150 savings per year for members using the Patient Assurance Program. ⁵
Real Time Benefit Check	Drives lower costs and higher medication adherence by enabling informed prescription decision-making before a pharmacy visit.
SaveOnSP*	Leverages pharmaceutical manufacturer dollars, which provides a \$0 customer out-of-pocket cost and significant specialty drug savings for clients. This leads to \$3-\$5 PMPM client savings. ⁶
SafeGuardRx® for Cigna Healthcare	Focuses on limiting self-funded clients' financial exposure, driving down drug costs and providing outreach and counseling for customers with complex, costly conditions.
Cigna Healthcare Opioid Management Program	Helps combat opioid misuse and addiction by applying our extensive, integrated experience across medical, pharmacy and behavioral benefits; providing a holistic approach that includes tight utilization management, enhanced support and counseling, and communications to those most at risk.
Cigna Pathwell Specialty***	Provides members with high-cost conditions personalized support and coordinated care to control infused or injected specialty medication costs under the medical benefit.
Member Choice	A network option that gives customers the flexibility to choose from two complete 30- and 90-day networks, with either CVS Pharmacy or Walgreens as the main anchor. Networks include local pharmacies, grocery stores, retail chains and wholesale warehouse stores, in addition to their preferred anchor pharmacy.
EncircleRxSM for Cigna Healthcare***	Limits coverage of GLP-1 medications to high BMI and documentation of weight-related comorbidities, requires engagement with a lifestyle modification program and monitors for fraud, waste and abuse.
EnReachRxSM for Cigna Healthcare	High-touch patient support clinical program at point of service or at certain pharmacies that targets increased adherence and positive outcomes through appropriate oversight and utilization of GLP-1s.

Integrated benefits - designed for better cost and health outcomes.

With truly integrated pharmacy benefits, we are able to identify savings opportunities and contact network providers to encourage prescribing lower-cost alternatives.

You can expect:

- > **Actionable insight** – We continuously monitor member activity and offer recommendations.
- > **Higher member engagement** – Every touchpoint works together to optimize engagement.
- > **Timely integrated reporting** – Get a full view of all benefit utilization to guide your decisions.

Contact us
